AVG CloudCare™

Jackpine TechNET

When eliminating IT headache is this easy …

Why complicate?

Boost your company productivity and reduce stress by simplifying and streamlining your IT management, with our services designed specifically for you!

AVG® AntiVirus – *Protect your PCs and network*

Award-winning antivirus protection detects, blocks, and removes viruses and malware from your company's PCs and servers. Stay informed in real time with reports sent straight to your inbox showing the threats that have been identified and removed from your business network.

AVG® Content Filtering – *Manage access to distracting sites*

Why not let your IT Provider manage distracting websites to keep your employees focused on business-related tasks no matter where they may be. Stay informed with activity reports sent straight to your inbox.

AVG® Remote IT – *Resolve your problems quickly*

Our remote management tool helps you be more proactive and productive when managing your network and devices. Stay informed with in-depth event logs. Options to easily install or remove software, offer support, and solve problems with no interruptions to your employees.

AVG® Email Security Services – *Keep emails safer and spam-free*

Email security services help keep your business communications more efficient, secure, and spam-free. We can deploy, monitor, and update all anti-spam, archive, and encryption services anytime, with no need for investing in any additional hardware or third-party software.

AVG® AntiSpam

Cloud-based email security service that delivers comprehensive protection against spam, viruses, phishing attacks, and other email-borne threats. Always automatically up-to-date, it tackles dangers in the cloud before they ever have a chance to impact your network.

AVG® Encrypted Email

Helps prevent identity theft and security breaches at your company by providing complete and efficient email protection. It eliminates the need for sender/recipient authentication by automatically encrypting all inbox-to-inbox communication through a hosted, secure network to more easily comply with industry regulations and safeguard your company's sensitive information.

AVG® Email Archive

Simple, secure, cloud-based solution that integrates seamlessly with your existing email infrastructure. It automatically routes all incoming, outgoing and internal email through the AVG Archive Cloud Gateway, so every message can be safely stored, searched for and recovered to individual PCs 24-7.

AVG® Email Archive Lite

Short-term and lower cost solution offers secure archive storage of all emails on a rolling 60-day basis so your employee can search, access and recover emails without the need to contact your IT specialist or IT provider. After 60 days, the emails and information are automatically deleted.

Winner of the MSP Alliance© MSPWorld Cup 2013 award for Best Cloud Solution

Benefits

Save money

✓ **Pay-as-you-go services**
All add-on services are available in monthly subscriptions. For AVG AntiVirus and AVG Content Filtering you can also choose from yearly or 2-year subscriptions.

✓ **Monthly billing**
Simple pricing. 1 year and 24 month subscription available for AVG AntiVirus and AVG Content Filtering.

✓ **No upfront investment**
No new hardware or third-party software is required.

✓ **No license limits**
There is no minimum number of services you need to purchase, and no license numbers to keep up with.

✓ **One-click activation**
Save money with real-time activation and deactivation of services and devices. Whenever an employee joins or leaves your company, adding or removing his computer can be done in a snap.

✓ **Free 30-day trial**
Try the full versions of our AVG AntiVirus and AVG Content Filtering services free for 30 days.

Improve efficiency

✓ **Fast, flexible, and accurate content filtering**
Block inappropriate or distracting websites to boost employee productivity. Or allow your employees access to sites like Facebook® only during specific times, such as their lunch break.

Stay protected

✓ **Virus and spam protection**
Help keep your company free of viruses, malware, and spam with AVG AntiVirus and AVG Email Security Services.

✓ **Automatic updates and upgrades**
Ensure that your employees' protection is always up-to-date. Real-time updates, upgrades, and even uninstalls are automatically pushed to your employees' computers so there's no need to waste time with manual checks.

Be in control

✓ **Multiple alerts**
Your IT provider will stay right on top of things with automatic email alerts. Whenever there's an issue, your IT provider will be notified immediately.

✓ **Runs silently**
While your IT provider is kept up to date, your employees won't be bothered with confusing pop ups and distracting messages from your security.

✓ **Reporting**
Your IT Provider can quickly review the activity and status of all your devices via multiple auto-generated reports, including executive summary, security, operational, and content filtering reports.

When simplifying your IT management can be this simple…Why complicate?
